1 General

This document describes the minimum required equipments for the Mechanical Repair Process of the K200 and K 220 mobile phones.

Equipment listed without a part number is not orderable from Sony Ericsson and must be bought locally.

2 Column Definitions

The matrices in the end of the equipment tables describe where the actual equipment is needed (marked with an X) or may be needed/optional (marked with a Z).

Flash upgrade: Equipment for downloading software to the unit, both signalling and test-program.

Manual test: Equipment necessary to perform a manual test.

Repair: Equipment necessary for replacing components.

The columns that assist in specifying and/or clarifying the equipment needed are considered description type columns.

- Description The name of the equipment.
- Part Number The Sony Ericsson part number to use when ordering from Sony Ericsson.
- Comments Additional information that helps to specify or clarify the equipment.

3 Repair Equipment, Mechanical

Some of the required equipment will be provided by Sony Ericsson and some equipment has to be sourced locally. This chapter will separate these equipments.

3.1 Sony Ericsson Provided Repair Equipment

			Flash Upgrade	Manual Test	Repair
Description	Part Number	Comments			
Sony Ericsson Programming Interface - SEPI	LTN 214 1484	USB/Interface Box+CD	X		
SEPI A1 Cable	KRY 101 1119/1		X		
Torque Screwdriver*	NTZ 112459	Torque set to 8-12Ncm			X
Torx Bits No. 6	NTZ 112 288	Spare part to screwdriver			X
Front Opening Tool	NTZ 112 302/2				X
Battery Eliminator	NTZ 112 542	Dummy Battery	Z		
Camera removal tool	NTZ1121070				X
